OUTDOOR STRAP COLLECTION**

# INDOOR NATURAL CANE FURNITURE

**VETRA** is introducing a new natural cane furniture line this year for you to add glamour to your INDOORS as well. Cane furniture, though natural in its appearance lends a very modern and trendy look to the entire decor. It's strong, bendable, durable, and transforms CO2 into clean, fresh air. Rattan is remarkably hardwearing and resistant to heat, cold, moisture and temperature fluctuations.

You can choose from our range of beautiful designer furniture with combination of simple and sophisticated feel of synthetic weave with the strength of natural rattan frame, is suitable for indoor and covered outdoors. While synthetic weave ensures the easy maintenance and durability of the furniture, the natural rattan frame ensures the strength and adds the touch of traditional and contemporary look of the furniture. **Light weight, easy maintenance and environmental friendliness** of the furniture adds to its charm. From hotels to cafe & restaurants, office to home and shops, it can be used anywhere. For day to day cleaning, it can be wiped with a cloth. For more extensive cleanings, mild soap is more than enough. And, in case it ends up losing its shine over the years, it can be wiped with plain furniture oil. Rattan requires no special attention whatsoever.

## Some facts:

- Rattan is highly durable, it can last for years to come
- It's strong, bendable, durable, and transforms CO2 into clean, fresh air.
- Environment friendly
- Easy maintenance and light weight

**Clean gently:** Dust your rattan furniture regularly with a soft cloth. Never use paint thinners to clean wicker or rattan/cane furniture.

**Rotation:** Natural fibre can fade in strong sunlight. This is a natural process, rotate furniture on a regular basis so as to evenly distribute the fading.

VCD 923

**Humidify:** Keep furniture away from areas of extreme heat as this can dry out the furniture. Natural plant fibres require a certain level of humidity so that it does not dry out or split. 11

VCD 913

### **Daily care:**

A damp cloth with mild furniture cleaner can be used for day to day cleaning but remember not to completely wet the furniture.

VCL 1103

VCL 1110

**Dampness:** In case the furniture gets wet simply dry it in the sunlight outdoors. The natural plant material will generally return to its original shape, take care not to bend it while wet.

### **Add comfort:**

Cane seats are very strong but because of their flexibility they can sag over time. Add cushions on your cane seat to improve the durability and comfort.

# OUTDOOR STRAP FURNITURE

**VETRA** is unique within the outdoor industry, it owns and operates both furniture and fibre production. We bring fibre specialists and world-class designers together to develop innovative designs. Vetra has catered to various clients ensuring their level of satisfaction has always been met. We believe in providing the best quality in everything we do for our customers; quality of our designs, of our fibre, of our weaving, and most importantly of our service to make you truly **rediscover comfort**.

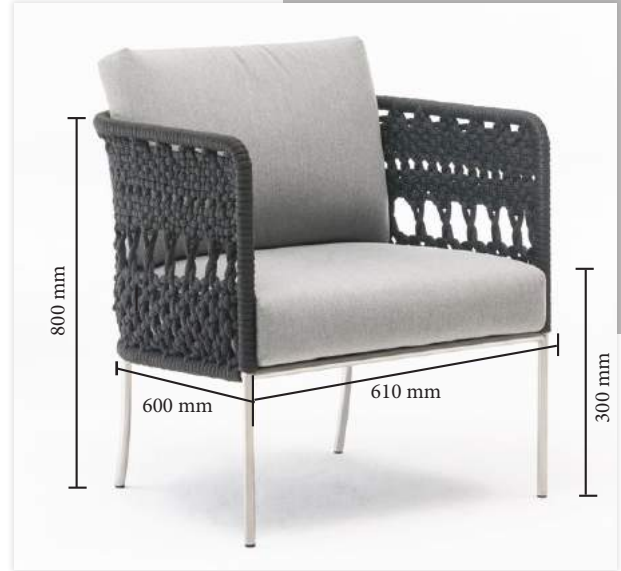

In our new strap collection come discover designs that take your outdoor lifestyle from ordinary to extra ordinary. Our classic chic knots and weaves are made of high quality UV stabilised polyolefin which makes the material weather resistant but yet soft to touch. Our furniture is resistant to sun and rain making them easy to maintain, hence increasing their durability. All materials are carefully selected and finished to ensure products have unsurpassed resistance to extreme conditions. In addition the entire range can be customised accordingly to your size, colour & style to compliment your space ensuring that the STUNNER fits in perfectly.
