*Teah*

At Vetra we never compromise on quality, we use the first grade plantation grown teakwood, obtained from reputed and legal sources in India. Teak wood is very stable and strong in nature and because teak wood does not rot it can easily be used outdoors

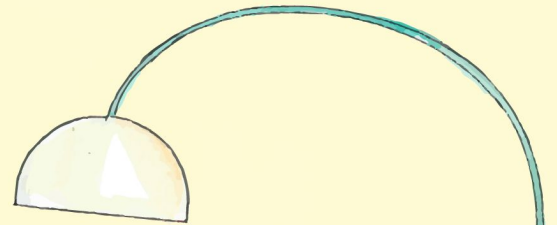

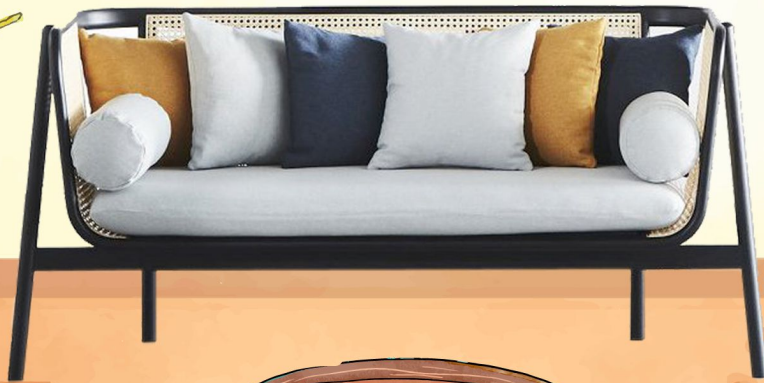

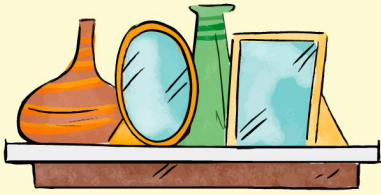

Teak does not need to be protected. It is a unique wood that if left in its natural state, is virtually maintenance-free. Teak can be left outside year round, surviving even the most extreme weather conditions. Therefore, teak is often considered the standard for outdoor furniture. However, depending on weather conditions, we may need to oil the furniture to keep it durable and shiny for years to come.

*Natural Cane*

*Inimitable style that complements your lifestyle*

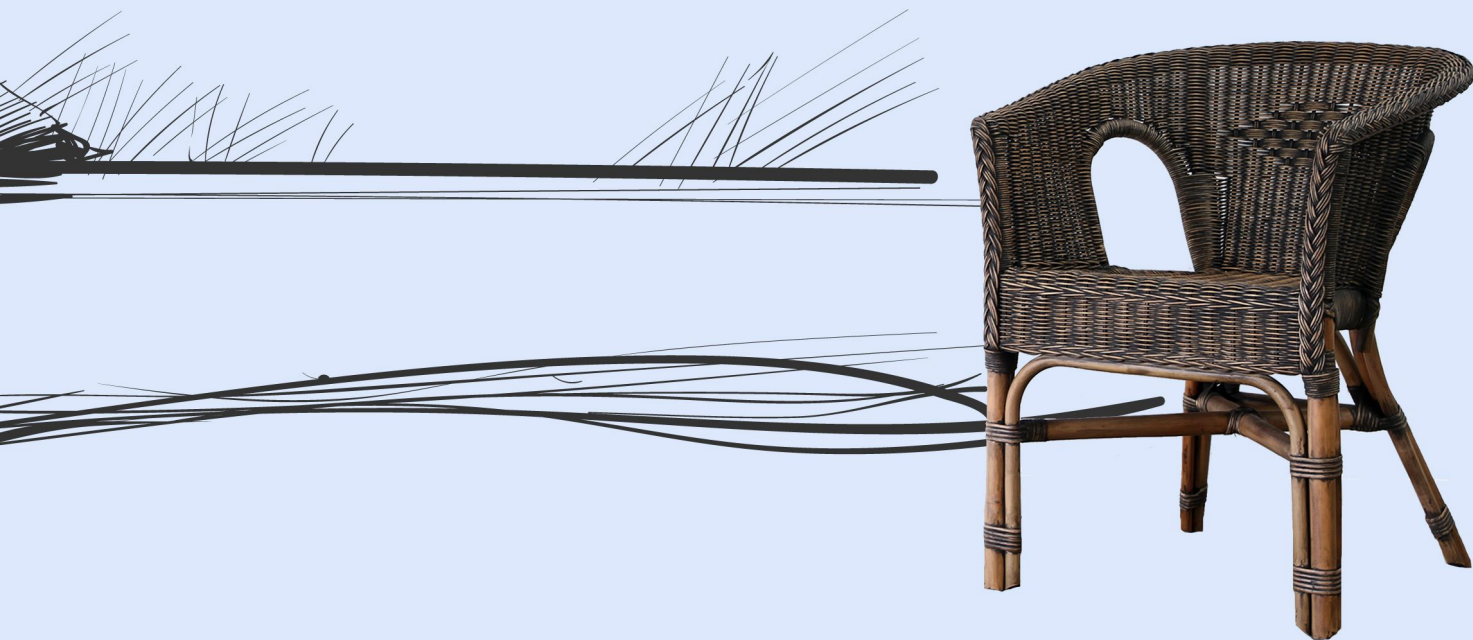

Cane furniture, though natural in its appearance lends a very modern and trendy look to the entire decor. It's strong, bendable, durable, and transforms CO<sub>2</sub> into clean, fresh air. Rattan is remarkably hardwearing and resistant to heat, cold, moisture and temperature fluctuations.

You can choose from our range of beautiful designer furniture with combination of simple and sophisticated feel of synthetic weave with the strength of natural rattan frame, is suitable for indoor and covered outdoors.

While synthetic weave ensures the easy maintenance and durability of the furniture, the natural rattan frame ensures the strength and adds the touch of traditional and contemporary look of the furniture.
