LUCE

Light

Clean, refined, and architectural

Ideal for minimal silhouettes and light outdoor structures.

Minimalist Simple refined

Vetra's design is rooted in clarity and restraint. Every piece is shaped by a belief that good design should feel quiet, balanced, and purposeful rather than decorative or excessive. Clean lines, well-considered proportions, and subtle detailing define the visual language, allowing the furniture to blend naturally into outdoor environments without overpowering the space.

Scandinavian inspired furniture

Scandinavian design—simplicity, thoughtful functionality, and natural harmony—bringing them into the realm of outdoor living. The brand’s design approach reflects a belief that beauty arises from clarity, purpose, and honest materials, creating pieces that feel both timeless and deeply connected to everyday life.

Dining Set

04

Bring timeless elegance to your dining space with this beautifully crafted indoor or outdoor dining table and chair set, made from premium teak wood. Designed in a unique hexagonal shape, this piece blends natural warmth with contemporary geometry. The rich teak finish highlights the grain and durability of the wood, while the thoughtfully designed chairs ensure comfort and style for everyday dining or special gatherings. A perfect balance of functionality, craftsmanship, and aesthetic appeal.”

LIVING | CABANA | SWING | ACCESSORIES

Aria

Air

Soft, effortless elegance

Very popular in high-end Italian design—suggests comfort without heaviness.

01

In a well-resolved swing design, the focus is on creating a sense of lightness and flow. The hardware is intentionally minimized, allowing the structure to feel uninterrupted and calm. Instead of bulky metal brackets, integrated rope weaves—like the bagel-toned rope you selected—rise naturally from the frame and extend seamlessly to the hanging point. This continuity softens the form and enhances the silhouette, making the swing appear almost weightless, as if it is gently suspended rather than mechanically supported.

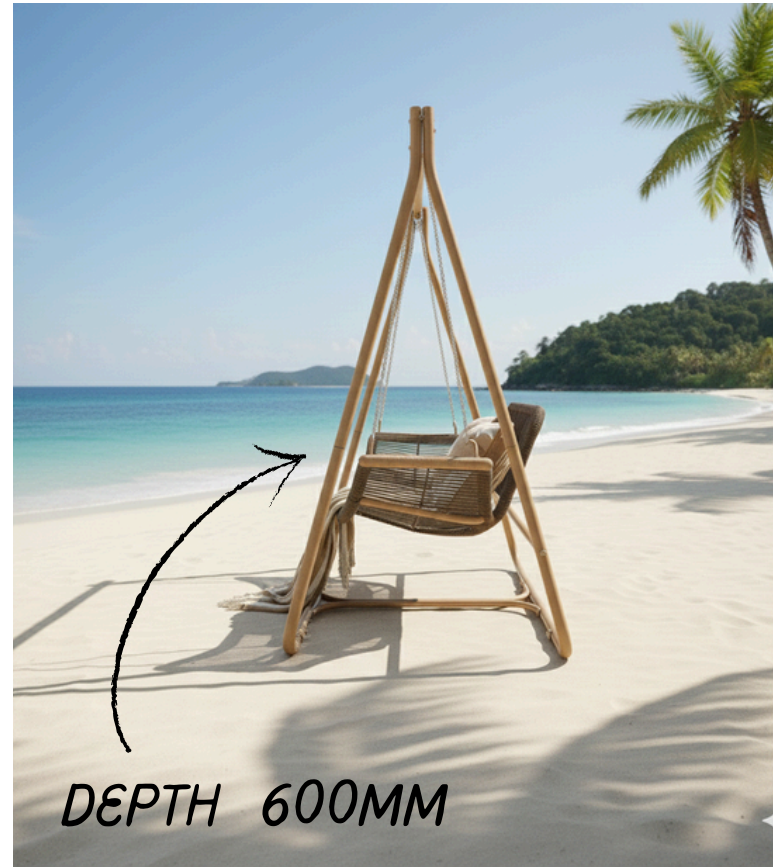

Organic Modern

*A Vetra swing that lets air,
motion, and comfort flow in perfect
balance.*

Soft

Modern

Every piece is shaped by a belief that good design should feel quiet, balanced, and purposeful rather than decorative or excessive. Clean lines, well-considered proportions, and subtle detailing define the visual language, allowing the furniture to blend naturally into outdoor environments without overpowering the space.

Daybed Design

Vetra's outdoor furniture is designed to age gracefully, maintaining its aesthetic appeal over time. Neutral tones, balanced silhouettes, and thoughtful construction ensure the collections remain relevant across changing trends. The result is outdoor furniture that feels refined yet effortless, supporting relaxed luxury and long-lasting outdoor living.
